Lufkin High School

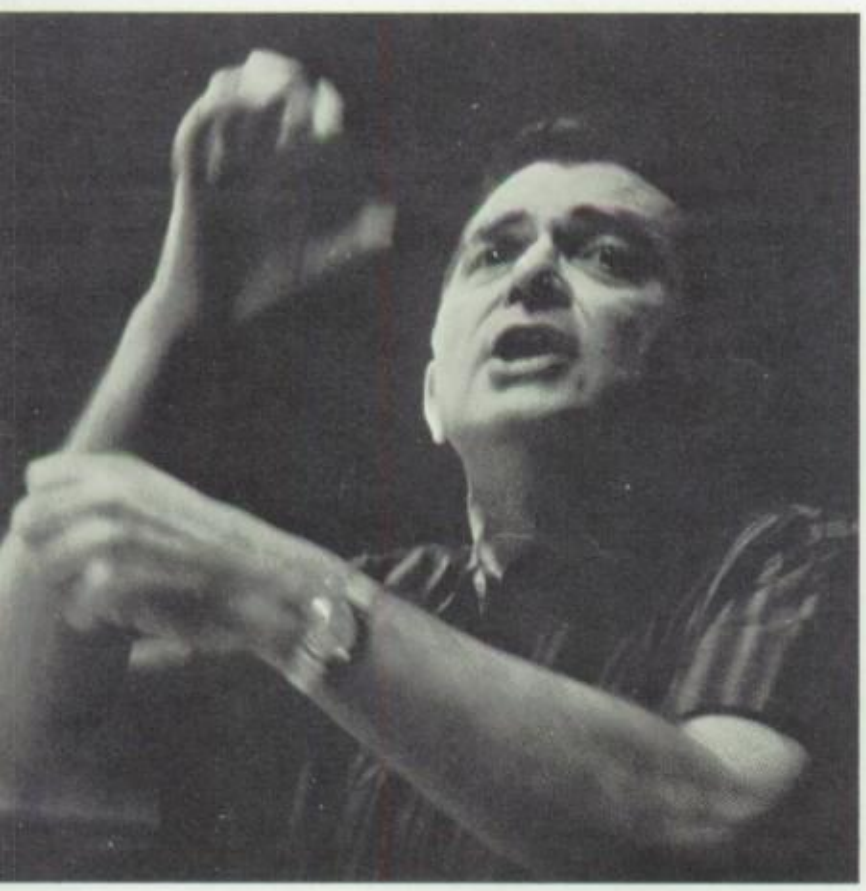
Lufkin, Texas

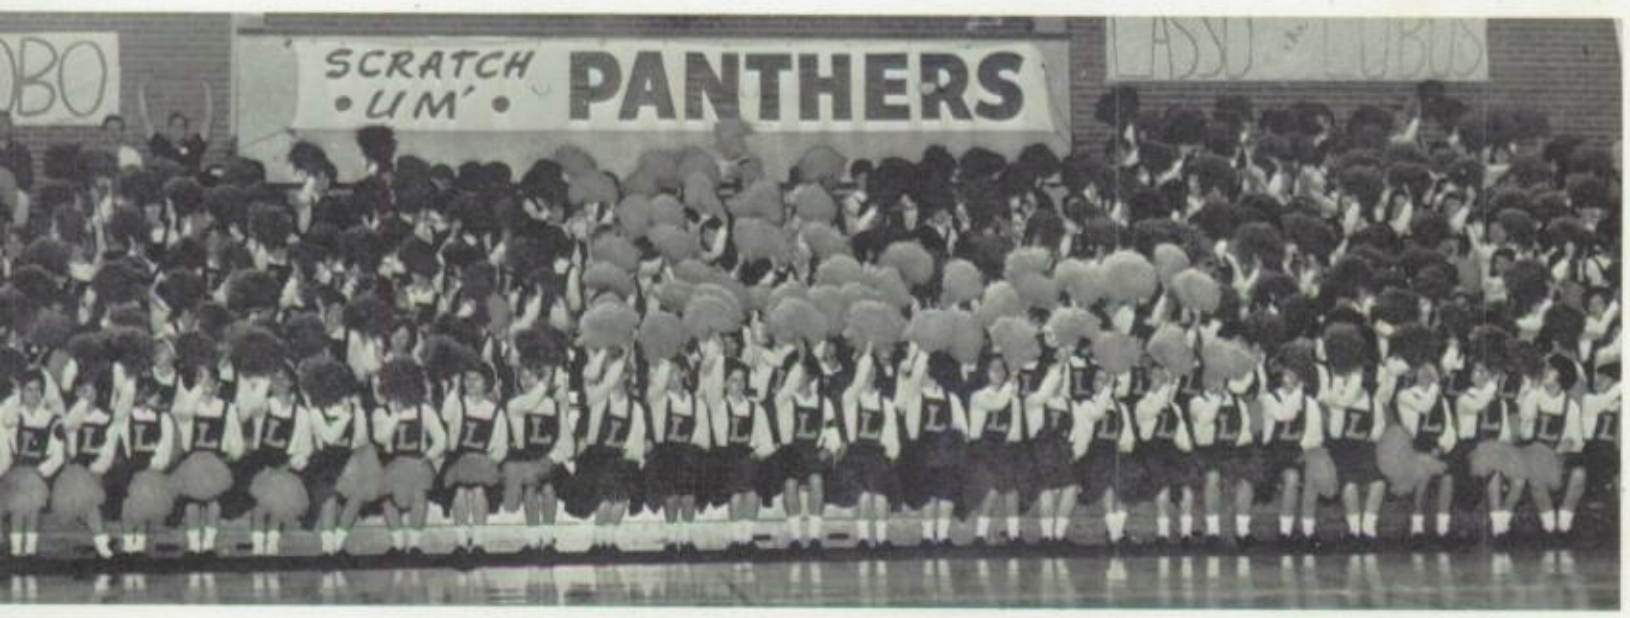
Volume XXV
1966

In the course of a student's high school career, the sights, sounds, and symbols of Lufkin High School are interwoven into a tapestry for remembrance.

The sights of discovery . . . of human experience . . . and of dramatic involvement in the spirit of high school life become a part of this remembrance.

Sights





Sounds

The sounds of L.H.S. provide an exciting backdrop for the passing parade of school days. Sounds of a laboratory session in French . . . sounds of a pep rally reverberating the rafters of the gym . . . sounds of clicking typewriters, of the public address announcements, of band marches at a football game . . . all echo across the campus and into the memory for years to come.

The symbols of L.H.S. stir loyal Panthers to action as each school day arrives. A long line of bright yellow buses in the morning... a "Go Panthers!" poster before a long-awaited game ...the victory flag fluttering in the breeze... a purple and gold corsage received with pride and tears... and a darkened corridor at the end of a long day... all symbolize hope and accomplishment.

The sights, sounds, and symbols of Lufkin High School reflect the efforts of a thousand people dedicated to the spirit of education.

V.I.C. Sweetheart Represents Lufkin Chapter in District and State Meets

Since the formation of Chapter 332 of the V.I.C. Club at L.H.S. last year, it has made remarkable progress in becoming one of the major organizations in District 8. This year the club successfully submitted Troy Edwards as a candidate for District Sergeant-at-Arms. Linray Brown and Larry Howard reached the state finals in Austin in the Skill Speed Contest. Beverly Cardwell was elected sweetheart of District 8 which entitled her to compete in the state contest in Austin this spring, along with seven other finalists. Also, this year the members of the V.I.C. Club painted school buses for a fee; with the money that they received, they were able to buy individual club jackets. This spring the entire club went to San Antonio and toured the Southwest Research Center.
